RAIL, AIR &
PUBLIC TRANSPORTATION

Patrick J. Garahan, Secretary
Vermont Agency of Transportation
133 State Street, Administration Building
Montpelier, Vermont 05602

Dear Mr. Garahan,

This letter acknowledges our acceptance of the E. F. Knapp State Airport Master Plan and our approval of the airport layout plan (ALP) prepared by Hoyle, Tanner and Associates of Bedford, NH under AIP grant 3-50-0001-0186 this date.

The development indicated on the ALP is approved subject to the following conditions:

As noted on sheet 2 of the ALP, waivers to design criteria for runway 17-35 safety areas, building restriction line, aircraft parking line and parallel taxiway separation are made a part of this approval. Buildings, now existing, which penetrate a 1000' wide primary surface for 17-35 are not required to be obstruction lighted.

An environmental assessment for any proposed property acquisition and its intended use, will be prepared.

Review of this master plan and the ALP has been with respect to safety, efficiency and utilization, it does not represent a commitment to provide financial assistance to implement the proposed plan.

Sincerely,

William M. Cronan
William M. Cronan, Manager
Planning and Development Branch

cc: Ludders, HTA
