A photograph of a concrete sidewalk, likely on a residential street. The sidewalk is composed of several slabs separated by expansion joints. A prominent joint runs vertically down the center of the frame. Another joint is visible horizontally across the top of the image, just below a concrete curb. The sidewalk is covered with shadows from trees and bushes, creating a dappled light effect. There are some small, dark spots and debris scattered on the surface. In the bottom right corner, there is a date stamp in orange text.

A photograph of a concrete wall showing significant structural damage. A large, jagged crack runs vertically down the left side of the frame. The concrete surface is weathered, with numerous small holes and pits visible. At the bottom of the crack, there are several loose, broken pieces of concrete. A date stamp is visible in the lower right corner of the image.
