

A photograph of a green steel bridge structure, likely a truss bridge, taken from a low angle looking up. The main vertical beam on the left is a solid green I-beam. To its right is a truss section with diagonal cross-bracing, also painted green. Numerous bolts are visible at the joints. The background shows a clear blue sky with some light clouds and a dense line of green trees. A date stamp is located in the lower right area of the image.
