

A photograph showing the interior of a long wooden bridge under construction. The view is from one end looking down the length of the bridge. The floor is made of wooden planks. The sides are supported by a complex system of wooden trusses and beams. The roof is also made of wooden beams and planks. Bright light is coming from the far end of the bridge, creating a strong glare. The date 09/23/2020 is printed in orange text at the bottom center.
