PORT 1

LM 622t **LM 62t** **LM 62t** **LM 62t**

ECONOLITE

Each module has a 15-pin D-sub connector with labels 1 through 15. The first four modules have labels 1, 2, 3, and 4 respectively. The last module has labels 1, 2, 3, and 6. The labels are on white paper and are attached to the modules with black tape. The modules are connected to a central unit via a black cable.

Internal components of the device, including a green printed circuit board (PCB) with various electronic components, a black cable, and a blue connector panel with multiple ports.

Control panel with a numeric keypad (1-9, 0, *, #) and function keys (F1-F6). The panel is blue and features a small LCD screen displaying "STATUS DISPLAY" and "BASE".

Function keys: F1 MAIN MENU, F2 NEXT SCREEN, F3 SUB MENU, F4 NEXT DATA, F5, F6.

Navigation: CURSOR (Up, Down, Left, Right arrows).
