THE COORDINATE SYSTEMS

VERMONT COORDINATE SYSTEM IN METRES
This map incorporates or is based on the Vermont Transverse Mercator Coordinate System (VCS) shown by fine black grid lines at 1000 metre intervals. Numerical references of the coordinate values are shown at street junctions and other points along the west and north (left) and lower (lower) borders.

VERMONT COORDINATE SYSTEM IN FEET
Black lines on this map are at 2000 feet intervals and are referenced along the west and north (left) and lower (lower) borders.

UNIVERSAL TRANSVERSE MERCATOR GRID
Blue lines on this map are at 1000 meter intervals and are referenced along the south and east (right) borders. These grid ticks represent the UTM Meridian in Zones 18T and 18T west and east, respectively, of Longitude 72° 00' West.

GEOGRAPHIC COORDINATES
Ticks shown on the east and west (right) borders of this map are at 30 second intervals. Subdivisions along the south and east (lower) borders are at 1 second intervals.

NOTICE

VERMONT STATUTES TITLE 32 V.S.A. 1601 (3) PROVIDES THAT A PERSON WHO WITHOUT THE WRITTEN AUTHORIZATION OF THE COMMISSIONER OF TAXES, CORRECTS, REMOVES, DELACERATES, DEFACES, OR ATTEMPTS TO SELL ANY MAP PREPARED UNDER THIS CHAPTER SHALL BE FINED NOT TO EXCEED $1,000.00.
